HEARING RESEARCH

Vol. 103, Nos. 1–2

CONTENTS

January 1997

Cited in: Biological Abstracts (BIOSIS); Chemical Abstracts; Current Contents/Life Sciences; Current Awareness in Biological Sciences (CABS); Excerpta Medica (EMBASE); Index Medicus; INSPEC; PASCAL M; Reference Update

Research Papers

P.G. Finlayson and T.J. Adam (Canada)
Excitatory and inhibitory response adaptation in the superior olive complex affects binaural acoustic processing 1

J. Neumann, S. Uppenkamp and B. Kollmeier (Germany)
Interaction of otoacoustic emissions with additional tones: suppression or synchronization? 19

M.J. Penner and T. Zhang (USA)
Prevalence of spontaneous otoacoustic emissions in adults revisited 28

L.E. Van Campen, J.W. Hall III and D.W. Grantham (USA)
Human offset auditory brainstem response: effects of stimulus acoustic ringing and rise-fall time 35

K. Mou, C.L. Adamson and R.L. Davis (USA)
Stria vascularis morphogenesis in vitro 47

T. Oshima, K. Ikeda, M. Furukawa and T. Takasaka (Japan)
Expression of voltage-dependent chloride channels in the rat cochlea 63

M. Hultcrantz and L. Sylvén (Sweden)
Turner's syndrome and hearing disorders in women aged 16–34 69

R.D. Hall and J.L. Massengill (USA)
The number of primary auditory afferents in the rat 75

R.A. Baird, P.S. Steyger and N.R. Schuff (USA)
Intracellular distributions and putative functions of calcium-binding proteins in the bullfrog vestibular otolith organs 85

B. Scharf, J. Magnan and A. Chays (France, USA)
On the role of the olivocochlear bundle in hearing: 16 case studies 101

H. Kajikawa, M. Umemoto, Y. Mishiro, M. Sakagami, T. Kubo and Y. Yoneda (Japan)
Expression of highly polysialylated NCAM (NCAM-H) in developing and adult chicken auditory organ 123

R. Killick and G.P. Richardson (UK)
Antibodies to the sulphated, high molecular mass mouse tectorin stain hair bundles and the olfactory mucus layer 131

S.L. McFadden, D. Henderson and Y.-H. Shen (USA)
Low-frequency 'conditioning' provides long-term protection from noise-induced threshold shifts in chinchillas 142

D.K. Morest, J. Kim and B.A. Bohne (USA)
Neuronal and transneuronal degeneration of auditory axons in the brainstem after cochlear lesions in the chinchilla: cochleotopic and non-cochleotopic patterns 151

J. Kim, D.K. Morest and B.A. Bohne (USA)
Degeneration of axons in the brainstem of the chinchilla after auditory overstimulation 169

Contents continued on inside back cover

0378-5955(199701)103:1/2;1-S

(Contents continued from back cover)

Y. Manabe, S. Yoshida, H. Saito and H. Oka (Japan)
Effects of lidocaine on salicylate-induced discharge of neurons in the inferior colliculus of the guinea pig 192

D.D. Greenwood (Canada)
The Mel Scale's disqualifying bias and a consistency of pitch-difference equisections in 1956 with equal cochlear distances *and* equal frequency ratios 199

C. d'Aldin, J.-L. Puel, R. Leducq, O. Crambes, M. Eybalin and R. Pujol (France)
Erratum to "Effects of a dopaminergic agonist in the guinea pig cochlea" [Hear. Res. 90 (1995) 202–211] 225

Calendar of events 227
